

June 27 (Fri)

8:45~8:50 **Opening address**

Akio Kubota

8:50~10:35 **Symposium 1**

Antenatal diagnosis of congenital malformations -Present and future

Moderators: Haruhiko Sago,
Shigeko Kuwajima

Key note lecture:

Fetal imaging of congenital anomalies: Present and future

- 1) Diagnosis with the fetal image of the congenital heart disease
- 2) Fetal MRI & fetal CT for skeletal dysplasia: The situation today and future activities
- 3) Antenatal diagnosis of fetal structural abnormalities: The role of pediatric surgeons

Haruhiko Sago

Noboru Inamura

Osamu Miyazaki

Takeo Yonekura

10:35~11:30 **Special Lecture 1**

Chairperson: Akio Kubota

The history of JSPR over the half century

Yoshihiro Hiramatsu

11:40~12:40 **Luncheon Seminar 1**

The joint proposal of pediatric sedation for MR examination: A message from consensus working group

Chairperson: Noriko Aida

- 1) The needs of pediatric sedation guidelines
- 2) Creating “Safety” Together -Protecting the children in need of sedation for MRI scans

Hiroshi Ohtake

Nobuaki Inoue

Interventional Radiology

- 1) Successful transcatheter closure of a congenital portosystemic shunt with interlocking detachable coils in a 3-year-old girl
- 2) A case of congenital extrahepatic portosystemic shunts
- 3) Stent placement for the treatment of portal vein stenosis in pediatric liver transplant recipient
- 4) Blunt renal trauma with pseudoaneurysm treated by TAE and nephrectomy: A case report
- 5) A case of cardiac tumor that caused abdominal aortic embolism
- 6) Ultrasound-guided puncture in pediatric angiography

Chairperson: Nobuyuki Kawai

Masato Kimura

Chihiro Tani

Yukari Sakae

Eri Maeoka

Shuhei Sato

Yoshiyuki Tsutsumi

Neck

- 7) A case report of left parotid gland injury bogged bogged down with diagnosis
- 8) The correlation between ultrasonographic findings and prognosis in fibromatosis colli
- 9) Kawasaki disease : imaging characteristics of cervical lymphadenopathy in contrast enhanced CT
- 10) Completely intramural bronchogenic cyst of the cervical esophagus in a neonate

Chairperson: Yukihiro Fujita

Kenichiro Konishi

Akitoshi Inoue

Sou Ohde

Kazuto Suda

Tumor

- 11) A case report of perivascular epithelioid cell tumor
- 12) A case of giant ovarian teratoma developed as an upper abdominal mass
- 13) A cases of rhabdomyosarcoma showing a remarkable regression by chemotherapy
- 14) A case of intrahepatic multifocal tumors ten years after surgery for Wilms tumor

Chairpersons: Kimio Kanegawa

Atsuhiko Handa

Atsushi Yoshida

Yusuke Kawanaka

Ryo Tsukada

15) A case of extrarenal malignant rhabdoid tumor of the spine

Taizo Takeuchi

Bone and soft tissue

Chairperson: Masashi Koyama

16) Loeys-Dietz syndrome: Three pediatric cases

Cheon Jung-Eun

17) Imaging findings of phalangeal microgeodic syndrome and a review of its etiology

Rieko Furukawa

18) A case of bilateral patellar sleeve avulsion and tuberosity avulsion fracture

Noriko Kitamura

19) A case with Kaposiform Hemangioendothelioma found by MRI

Toshikazu Itabashi

13:45~15:30 **Symposium 2**

IVR for hemangiomas and vascular malformations -Up-to-date

Moderators: Hidefumi Mimura

Akihiro Yoneda

Key note lecture:

Appropriate diagnosis and the multidisciplinary management of vascular anomalies

Keigo Osuga

1) Experiences on intralesional sclerotherapy in children : an effective and less invasive treatment for subcutaneous venous malformations

Shuichiro Uehara

2) Hemangiomas and vascular malformations: Clinical findings and imaging with emphasis on MRI

Shuji Nagata

3) Diagnosis of hemaigioma/vascular malformation in Pathology

Eiichi Morii

4) A case of blue rubber bleb nevus syndrome presenting with gastrointestinal bleeding

Yuka Morita

5) Outpatient sclerotherapy for slow-flow vascular malformation in children

Shigeru Watanabe

15:30~17:15 **Symposium 3**

Ultrasonographic diagnosis of acute abdomen -Can ultrasonography surpass CT?

Moderators: Tatsuo Kono

Tadaharu Okazaki

Key note lecture:

Pediatric gastrointestinal diseases and transabdominal ultrasonography

Atsushi Yoden

1) Sonographic images of pediatric diseases triggering acute abdomen

Tomoki Aomatsu

2) Ultrasonographic diagnosis of acute abdomen in children and infants

Michihiro Sugai

3) Performance of ultrasound in the diagnosis of acute abdominal pain in children

Kazuhito Nonaka

4) Diagnostic criteria on ultrasonography for appendicitis in children to avoid unnecessary urgent operation

Kazuhiko Yoshimoto

17:15~19:15 **Pediatric Radiology in Action 2014**

Moderator: Yutaka Sato

—Discussion in the Reading Room—Radiologists vs. Surgeons

Radiologists: Yutaka Sato, Shunsuke Nosaka

Pediatric Surgeons: Graeme J Pitcher, Hiroaki Kitagawa

19:30~ **Banquet (at Portopia Hotel)**
